## FORD C-4 PERFORMANCE PARTS

*Manufactured In-House by TCS Products*

### **FORD C4 Billet Aluminum Direct Drum**

**Product #: 523900**

*Manufactured from 7075-T6 aluminum.*

- \* *60% weight reduction, weighs 1.38 lbs. vs 3.40 lbs. on the O.E. part.*
- \* *Holds up to 6 frictions.*
- \* *Ring bore utilizes a steel ring sleeve.*
- \* *Increased piston apply feed holes.*
- \* *Uses O.E. support bushings.*
- \* *100% drop-in product. No modifications required.*

### **FORD C4 300 Maraging Input Shaft**

**Product #: 549700A**

*C-4 Input Shaft made to handle high horsepower applications on cars using power adders like turbochargers, nitrous, superchargers and competition off road trucks. This shaft comes in the conventional 24X26 spline combination and installs as easy as the stock C-4 input shaft.*

### **FORD C4 Billet Steel Forward Clutch Drum**

**Product #: 523600**

*C4 Forward Clutch Drum. The drum is precision machined from 4140 heat treated stress relieved billet steel. This drum is an ideal replacement for the OEM drum, providing superior strength and durability for drag racing and off-road applications. The drum is a 100% drop-in product, no modifications are necessary.*

### **FORD C4 Billet Aluminum Servo**

**Product #: 523005**

- \* *This Billet Aluminum Servo Cover eliminates leakage and pressure loss that can occur under extreme driving conditions.*
- \* *This kit comes with Gasket, "O" Ring and installation hardware.*
- \* *The use of a high performance Ford "H" piston delivers more band clamping force and provides sharp shifts into 2nd gear.*

### **FORD C4 Ultra-Light Sun Shell**

**Product #: 521450**

- \* *For the serious enthusiast looking to reduce every possible ounce of weight from the transmission.*
- \* *Gold Dichromate plated.*
